

SUMÁRIO/CONTENTS

Mensagem de Boas-Vindas	3
Comissão Científica e Comissão Organizadora do Congresso	4
Programa Científico	5

SESSÕES

SESSÃO 1: INFEÇÃO E DOENÇAS REUMÁTICAS	22
MODERADORES: Carlos Vaz e José Vaz Pato	
• Palestra 1: Microbioma e doenças reumáticas imunomediadas	22
Carlos Miranda Rosa	
• Palestra 2: Como prevenir e tratar as infeções em doentes reumáticos	22
Maria José Santos	
SESSÃO 2: SERÁ POSSÍVEL PARAR A PROGRESSÃO DA ESPONDILITE ANQUILOSANTE?	23
MODERADORES: Fernando Pimentel e Helena Santos	
• Palestra 1: Different patterns of structural progression in axial spondyloarthritis	23
Pedro Machado	
• Palestra 2: Is there an inhibition in structural progression with NSAIDs or other drugs?	23
Sofia Ramiro	
SESSÃO 3 : NOVOS CONCEITOS NAS DOENÇAS DIFUSAS DO TECIDO CONJUNTIVO	23
MODERADORES: Catarina Resende e Maria João Salvador	
• Palestra 1: New treatment recommendations for systemic sclerosis. How to optimize treatment and future perspectives	23
Ulf Muller-Ladner	
• Palestra 2: Dermatomyositis: evaluation of disease activity and response criteria. How to optimize treatment and future perspectives?	24
Hanns-Martin Lorenz	
SESSÃO 4: HOT TOPICS NO USO DE FÁRMACOS BIOTECNOLÓGICOS	24
MODERADORES: Luís Miranda e Margarida Oliveira	
• Palestra 1: The explosion of biosimilars	24
Tore Kvien	
SESSÃO 5: A HETEROGENEIDADE GEOGRÁFICA E INDIVIDUAL DA OSTEOPOROSE	24
MODERADORES: Viviana Tavares e Eugénia Simões	
• Palestra 1: O conhecimento da osteoporose no contexto nacional	24
José António Pereira da Silva	
• Palestra 2: Personalização da terapêutica da osteoporose: será possível tratar com um alvo/objectivo?	25
José Carlos Romeu	
SESSÃO 6: REUMATOLOGIA PEDIÁTRICA NA IDADE ADULTA	25
MODERADORES: Iva Brito e Melo Gomes	
• Palestra 1: Many changes in JIA during the last 15 years	25
Alberto Martini	

SUMÁRIO/CONTENTS

CONFERÊNCIAS

Conferência 1 – Personalized treatment for fibromyalgia: are there subtypes of fibromyalgia? Afton Hassett	28
Conferência 2 – State-of-the-art of the treatment of lupus and response criteria David A Isenberg	28
Conferência 3 – New treatments for immune mediated rheumatic diseases: new monoclonal antibodies and new inhibitors of intracellular signaling. What is in the pipeline? John Isaacs	29
Conferência 4 – The future of osteoarthritis João Eurico Fonseca	29

COMUNICAÇÕES ORAIS

CO75 – Patient global assessment in rheumatoid arthritis conveys a variable blend of disease activity and disease impact: a cross-sectional study with 311 patients	32
CO131 – Triple positivity is a risk factor for recurrent thrombosis in young patients with primary antiphospholipid syndrome	33
CO187 – Interstitial lung disease in scleroderma portuguese patients	35
CO6 – Effect of comedication with conventional synthetic dmards on retention of TNF inhibitors in patients with spondyloarthritis: a prospective cohort	36
CO12 – Performance of the ASAS classification criteria for axial and peripheral spondyloarthritis – a systematic literature review and meta-analysis	37
CO18 – Predictors of response to TNF- α blockers in patients with polyarticular psoriatic arthritis	38
CO254 – Association between enthesitis changes and cardiovascular risk in psoriatic arthritis patients	39
CO159 – Years of working life lost caused by rheumatic diseases in Portugal – analysis from the epireumapt study	40
CO219 – Autoantibodies against Δ I of β 2glycoprotein i are a risk factor for fetal death in primary antiphospholipid syndrome pregnancies	41
CO25 – Performance of the EULAR/ACR 2013 classification criteria in a portuguese systemic sclerosis population	42
CO53 – Esclerose sistêmica de longa duração – precisamos de uma reclassificação dos padrões capilaroscópicos. Um estudo multicêntrico	43
CO114 – Systemic sclerosis is associated with poor sleep quality and decreased quality of life	44
CO63 – Real-life effectiveness of golimumab in biologic-naïve rheumatoid arthritis patients – data from Reuma.pt, a portuguese registry	45
CO130 – High C-reactive protein at baseline is associated with long-term treatment persistence in patients with rheumatoid arthritis treated with rituximab	46
CO201 – B-cell markers expression is affected by TNF-inhibitors and tocilizumab treatment in rheumatoid arthritis	46
CO243 – Osteoporosis treatment and outcomes of proximal femur fractures – still missing the opportunity?	47
CO238 – Arthritis induces early bone structural degradation and mechanical weakness	48
CO197 – Remission and re-treatment of patients with Paget's disease of bone treated with zoledronic acid – a single center 10 year experience	49
CO119 – Serum receptor activator of nfkb ligand (RANKL) and osteoprotegerin (OPG) in juvenile idiopathic arthritis: relation to disease activity	49

SUMÁRIO/CONTENTS

CO139 – Comparison of the utility and validity of three scoring tools to measure skin involvement in patients with juvenile dermatomyositis	50
CO165 – Juvenile idiopathic arthritis in adulthood: clinical pattern and long-term outcomes of 426 patients	51

MESAS SPR

MESA SPR – CELGENE	54
• Apremilast: uma nova terapêutica oral na artrite psoriática Christopher J Edwards MODERADOR: Elsa Vieira de Sousa	
MESA SPR – PFIZER	54
• Signaling the future in RA management MODERADOR: Joaquim Polido Pereira	
• JAK pathway: targeting intracellular signaling John Isaacs	
• JAK pathway: clinical trial programme Maria José Santos	
MESA SPR – ABBVIE	54
• The complexity of spondyloarthritis (SPA) and how to approach features of SPA in daily practice Pedro Machado MODERADOR: José Canas da Silva	
MESA SPR – ROCHE	54
• Finding the best fit: therapeutic options for patients with RA MODERADOR: José Canas da Silva	
• Real world data as the evidence Maria José Santos	
• Clinical trials as the evidence Gerolamo Bianchi	

POSTERS

GRUPO 1	
• P122 – Applying lupus low disease activity state definition to a cohort of portuguese lupus patients	56
• P175 – Systemic sclerosis (SSc) and interstitial lung disease (ILD): predictors of progression of ILD in patients with SSc	56
• P14 – Dermatomyositis and malignancy – a nonnegligible relationship	57
• P253 – Patologia reumatológica em doentes com tiroidite autoimune	58
• P215– Idiopathic inflammatory myopathies: report from a rheumatology unit	58
• P97 – Determinantes do envolvimento pulmonar na esclerose sistémica – um estudo transversal	59
• P214 – Fatores de prognóstico para os resultados de insucesso da intervenção multimodal em fisioterapia em utentes com dor lombar crónica	60
• P99 – A novel feature selection algorithm based on bone micro architecture analysis to identify osteoarthritis	61

SUMÁRIO/CONTENTS

GRUPO 2

- P169 – Rheuma space: standard practice aiming clinical excellence in rheumatology 62
- P38 – Prevalência e correlatos de fibrose pulmonar numa coorte de miopatias inflamatórias idiopáticas 63
- P157 – Consulta de artrite inicial: valor dos critérios de referência 63
- P71 – The use of analgesic and other pain relief drugs to manage chronic low back pain – results from a national survey 64
- P231 – Vitamine D status: a transversal evaluation in rheumatic patients 65
- P225 – Envolvimento cardíaco nas doenças reumáticas – dois casos clínicos 66
- P234 – Ecografia na síndrome do canal cárpico 67
- P160 – Years of working life lost caused by osteoarthritis in Portugal – analysis from the epiReumapt study 68
- P45 – Biópsia de glândulas salivares *minor* – sete anos de experiência de um serviço de reumatologia 68
- P111 – Haemophilus influenzae septic arthritis in the era of immunization 69

GRUPO 3

- P142 – Combination therapy of mycophenolate mofetil and cyclosporine a for induction treatment of refractory lupus nephritis: a case series 70
- P61 – Contribution of ultrasonography to assess disease activity in patients with inflammatory myopathies 70
- P49 – From bursitis to fasciitis 71
- P88 – Esporotricose pulmonar e ganglionar associada a imunossupressão com antagonista do TNF- α 72
- P257 – Mortality after hip fracture: retrospective study 73
- P57 – Mcardle's disease: clinical and genotypic description of patients followed in a portuguese tertiary centre 73
- P93 – Anti-SSA/RO antibodies in a cohort of systemic sclerosis patients: the association with interstitial lung disease 74
- P203 – Doença óssea de Paget – casuística de 15 anos de um serviço de reumatologia 74

GRUPO 4

- P83 – Serum amyloid a protein in spondyloarthritis patients under anti-tumour necrosis factor-alpha: an useful biomarker? 75
- P111 – Haemophilus influenzae septic arthritis in the era of immunization 76
- P128 – Switching biologic agents in a “real-life” population of rheumatoid arthritis patients 77
- P26 – Gender effect on systemic sclerosis phenotype and survival 78
- P222 – Osteoporosis in men – a concern only in elderly patients? 78
- P240 – Hypogammaglobulinaemia and risk of infection in patients with rheumatoid arthritis treated with rituximab 79
- P27 – Survival and causes of death in a portuguese population with systemic sclerosis 80
- P193 – A first report of juvenile psoriatic arthritis successfully treated with ustekinumab 81
- P151 – Artropatia gotosa tofácea grave em mulheres: a propósito de 3 casos clínicos 81

GRUPO 5

- P112 – Tocilizumab – a novel promising therapy in systemic sclerosis 82
- P242 – Reuma.pt/SCL – the portuguese registry for scleroderma patients 83
- P220 – Artrite como manifestação inicial de cirrose biliar primária 83
- P233 – Características clínicas de doentes com espondilartrite: a experiência de um centro 84
- P17 – Osteonecrose multifocal em doente com síndrome de Guillain-Barré 85
- P251 – A medicina física e de reabilitação na espondilite anquilosante 87

SUMÁRIO/CONTENTS

• P147 – DMARD e outras terapêuticas contra-indicadas na gravidez: quais os riscos?	87
• P152 – Espondilite anquilosante evoluída e não só	88
GRUPO 6	
• P123 – Does the SLICC damage index underestimate comorbidity-associated impact on the survival of elderly sle patients?	89
• P248) – Pulmonary arterial hypertension associated with connective tissue disease A single center cohort report	89
• P194 – Adenopatias e rash cutâneo numa doente com esclerose sistémica: doença linfoproliferativa?	90
• P117 – Determinants of quality of life, labor-market status and healthcare utilization in ankylosing spondylitis patients	91
• P84 – Association of anterior uveitis and other clinical findings in patients with spondyloarthritis	92
• P89 – Contraceptive practices and knowledge among women with systemic lupus erythematosus in a portuguese tertiary care hospital	92
• P167 – Physician’s global assessment of disease activity in rheumatoid arthritis, reflects solely objective measures and disregards patient reported outcomes	93
• P209 – A new ultrasonography protocol for the assessment of primary knee osteoarthritis	94
GRUPO 7	
• P105 – Prevalência e correlatos de fibrose pulmonar numa coorte de esclerose sistémica	94
• P101 – Determinantes da capacidade funcional nos doentes com artrite reumatóide – um estudo transversal	95
• P29 – Painful shoulder: relevance of clinical and sonographic data on corticosteroid injection outcome	96
• P213 – Análise individual da efetividade da educação baseada na neurofisiologia da dor em utentes com dor lombar crónica: estudo clínico randomizado	97
• P43 – Serum amyloid a levels in psoriatic arthritis patients – a marker of disease activity?	97
• P176 – Antiphospholipid antibodies in a cohort of patients with systemic sclerosis	98
• P223 – Systemic sclerosis patient’s clinical profile: a descriptive and comparative analysis of a rheumatology unit cohort and EUSTAR cohort	99
• P244 – Prevalência e significado de anticorpos anti-nucleares (anas) nos doentes de uma consulta de artrite inicial	100
• P124 – Association between mucocutaneous manifestations and immunological characteristics in juvenile-onset systemic lupus	104
GRUPO 8	
• P229 – Recurrent tenosynovitis of both shoulder and wrist: a case report	104
• P5 – Síndrome PPP – articulações em perigo	105
• P195 – Amiloidose pulmonar em doente com síndrome de Sjögren primário	106
• P98 – Marcadores inflamatórios na artrite reumatóide – qual o papel da proteína amiloide A sérica?	107
• P235 – Infliximab biossimilar nas doenças reumáticas	108
• P237 – Nailfold capillaroscopy in rheumatology practice – a single center experience	108
• P184 – Perfectionism in chronic pain: are there differences between fibromyalgia, rheumatoid arthritis and healthy controls?	110
• P210 – Desenvolvimento e efetividade de um programa de educação baseado na neurofisiologia da dor adaptado a utentes com fibromialgia: estudo de série de casos	110
• P207 – Policondrite recidivante: casuística de um serviço de reumatologia	111

SUMÁRIO/CONTENTS

GRUPO 9

- P113 – Mesenteric vasculitis in systemic lupus erythematosus 112
- P192 – Bio-FM: body composition, gait speed and physical activity in fibromyalgia patients versus controls – a cross-sectional study 113
- P236 – Terapêuticas utilizadas em doentes com espondilartrite: a experiência de um centro 114
- P168 – Púrpura de Henoch-Schönlein do adulto: a propósito de um caso clínico 115
- P13 – O que poderia ser uma subluxação atlanto-axial... 115
- P162 – Self-reported rheumatic diseases and early retirement in Portugal – analysis from the epiumapt study 116
- P174 – Síndrome de Dress secundário a sulfassalazina – um caso potencialmente fatal 118
- P138 – Hepatite granulomatosa secundária a terapêutica com etanercept – um caso raro 118
- P178 – Serum concentrations of 25-OH vitamin D in a cohort of patients with systemic sclerosis 119

GRUPO 10

- P200 – Impacto da terapêutica biológica na redução do número de sinoviorteses em doentes com artrite reumatóide: experiência de um serviço 120
- P103 – Remission and low disease activity matrix tool: results in real-world rheumatoid arthritis patients under golimumab 121
- P148 – Lúpus eritematoso sistémico e gravidez: fatores preditores de eventos adversos 121
- P47 – Biópsia muscular: casuística de um serviço de reumatologia 122
- P154 – Artropatia gotosa nas mulheres: um desafio diagnóstico 123
- P180 – Retrospective evaluation of mycophenolate mofetil infectious side effects on lupus nephritis patients 123
- P95 – Ultrasound-guided synovial biopsy, an emerging, minimally invasive, well-tolerated technique used in clinical practice and research: single center experience 124
- P120 – Parasitic arthritis – are *endolimax nana* and *entamoeba coli* the culprits? 126

GRUPO 11

- P183 – Artrite numa coorte de esclerose sistémica 127
- P228 – Doenças reumáticas e cirrose biliar primária 127
- P230 – O papel da biópsia muscular – a experiência de um serviço de reumatologia 128
- P132 – Sucesso terapêutico com infliximab num doente com doença de Behçet e atingimento vascular grave 129
- P44 – Biópsia de gordura abdominal subcutânea: casuística de um serviço de reumatologia 130
- P198 – Febre e infiltrados pulmonares em doente com poliangeite microscópica: hemorragia alveolar ou pneumonia bilateral grave? 131
- P260 – Síndrome do túnel cárpico e gota tofácea: caso clínico 131
- P172 – The Erasmus syndrome: a rare association 132
- P205 – Ombro congelado: uma causa extra-articular rara 132

GRUPO 12

- P102 – Síndrome anti-sintetase – um caso de tratamento de sucesso com rituximab 133
- P224 – Protóxido de azoto nas técnicas de reumatologia pediátrica: eficácia e segurança 134
- P81 – Osteomalácia hipofosfatémica hiperfosfatúrica induzida pela administração de carboximaltose férrica: uma doença e uma sua etiologia que não podem ser esquecidas 134
- P100 – A clinical study to examine thresholds of joint space width and joint space area for identification of knee osteoarthritis 135
- P125 – Neuropsychiatric involvement in juvenile-onset systemic lupus 136

SUMÁRIO/CONTENTS

• P94 – Inflammatory thoracic back pain in a patient with psoriasis as the initial presentation of a Takayasu arteritis	137
• P85 – Hip involvement in spondyloarthritis patients: a frequent and serious manifestation	138
• P232 – Internuclear ophthalmoplegia during treatment with a tumor necrosis factor antagonist: a case report	139
• P250 – A coexistência de artrite reumatóide e nefrite lupica: a propósito de um caso clínico	139
GRUPO 13	
• P146 – Cardiac involvement in systemic sclerosis – a portuguese reality	140
• P28 – Certolizumab pegol in combination with methotrexate in DMARD-Naïve patients with active, severe, progressive rheumatoid arthritis: results from a randomized, double-blind, controlled phase 3 study	141
• P104 – An opportunity to break the fragility fracture cycle: 10 months of a fracture liaison service	143
• P202 – Tuberculose pulmonar em doente com artrite reumatóide tratado com adalimumab	144
• P212 – Artropatia microcristalina espondilartrite-like	144
• P41 – Nailfold capillaroscopy findings in scleroderma patients – prognostic implications	145
• P249 – Cyclophosphamide cardiotoxicity – a clinical case	146
• P126 – Restless leg syndrome prevalence is not increased in systemic sclerosis patients	147
• P163 – Regional analysis of indirect costs of early retirement due to rheumatic diseases in Portugal – results from the epireumapt study	148
GRUPO 14	
• P177 – Púrpura trombocitopénica trombótica como apresentação de doença indiferenciada do tecido conjuntivo	148
• P65 – Cost savings with biosimilars in rheumatology: a systematic literature search of budget impact analysis	149
• P79 – Um caso de sobreposição de artrite reumatóide e espondilartrite axial	150
• P196 – Localizações raras de doença óssea de Paget	150
• P46 – Biópsia de membrana sinovial: casuística de um serviço de reumatologia	151
• P246 – Síndrome do martelo hipotenar induzindo acrocianose persistente	152
• P150 – Espondilodiscite – desafio diagnóstico na infecção oculta	153
• P155 – A praticidade da ecografia: a propósito de um caso clínico de fratura de <i>stress</i>	153
• P181 – Seasonal disease activity in lupus nephritis in northern Portugal – retrospective study	154
GRUPO 15	
• P186 – Negative affect in chronic pain: the heart of the matter	155
• P255 – Rastreamento da tuberculose em crianças candidatas a terapêutica biotecnológica: estratégias e resultados	156
• P149 – Poderão os novos antivirais para o tratamento da hepatite C induzir ou agravar manifestações clínicas imunomediadas?	157
• P173 – Vasculite de grandes vasos em doente com lúpus eritematoso sistémico – o valor diagnóstico do PET	157
• P247 – Doença relacionada com IGG4 – um desafio diagnóstico	158
• P87 – Biosimilar candidate therapies currently in development for immune-mediated diseases: a review	159
• P245 – Medication adherence in rheumatoid arthritis and psoriatic arthritis patients	160
• P137 – Prevalence of low bone mineral density and its associated clinical features in a cohort of spondyloarthritis patients	161

SUMÁRIO/CONTENTS

GRUPO 16

- P133 – Doença da arranhadela do gato em doente com lúpus eritematoso sistémico: um diagnóstico a ter em conta 162
- P136 – Alterações do interstício pulmonar em doente com lúpus eritematoso sistémico sob rituximab: toxicidade pulmonar *versus* pneumonite lúpica 163
- P227 – Derrame pleural como manifestação inicial de artrite reumatóide: caso clínico 163
- P158 – Bio-FM: are body composition and physical activity levels related to functional outcomes and pain in fibromyalgia? A cross-sectional study 164
- P171 – Casuística de uma coorte de consulta de artrite inicial 165
- P188 – Associação improvável entre duas patologias ou entidade única? 166
- P140 – Real-world quality-adjusted life-years gains in portuguese patients with rheumatoid arthritis following 1 year of golimumab treatment 167
- P37 – Characteristics and outcomes of prospectively-reported pregnancies exposed to certolizumab pegol from a safety database 168
- P161 – Cost of early retirement caused by rheumatic diseases in Portugal – analysis from the epireumapt study 169
